Allowable Subject Matter

Claims 43-49 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant's independent claims now amended claim 43 and original claim 46 are allowed over the prior art of record because none teach or render obvious an anodizing apparatus comprising:

Pertaining to claim 43, first and second electrodes having a belt like form.

Pertaining to claim 46, a third electrode coming in contact with the back side of the substrate and a fourth electrode facing the third electrode, interposing the substrate between them.

See **Tayanaka** US Patent **6,194,239** teaches an anodizing apparatus however, fails the step where the first and second electrodes have a belt like shape, in addition, where a third and fourth electrode is being used where the substrate is interposing between them.

All dependent claims are also rendered allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
